Federal Communications Commission Statement

This device complies with FCC Rules Part 15. Operation is subject to the following two conditions:

• This device may not cause harmful interference.

• This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined

by turning the equipment off and on, the user is encouraged to try to correct the interference by doing one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

System Requirements
     MAC OS X

Features:
- Provide extra 2 USB 2.0 downstream ports compatible with USB1.1/1.0 Specification
- Compliant with the USB 2.0 specifications
- Support individual over-current detection and reverse current flow blocking for all downstream port
- Chicklet Style Keycap
- High quality Scissors type key module
- Fully support Plug & Play and Hot Swapping

The system will install the driver automatically and complete the installation.

Package includes:

SKP-7140MH, Manual

Specification
- Dimension: 126 X 84 X 12 mm (L×W×H)
- Weight: 105 g
- Offer 2 USB downstream ports.
- Power consumption: DC5V±10% under 500mA without downstream device
- Key Layout: 20 keys
- Key switches: Scissors type key module
- Key Cap travel: 1.8mm
